

Pure Parallel Observations

Program, Obs only 1 expspec	Comment
Introduction	
336draft 3-5	initial phase only example observations specified in APT
336 3-5, 337 1	after approved use pure parallel slots assigned
Allowed templates to have pure parallels attached (example slots)	
00301001001_0013	MIRI Imaging
00502002001_0001	NIRCam Imaging
00663001001_0002	NIRSpec MOS
00651001001_0003	NIRISS Imaging
Science Pure Parallel Proposals	
336draft, 336	check Pure Parallel Proposal box on Proposal Information form
336	target section removed from proposal
336 3-5, 337 1	all templates selected have target automatically set to PARALLEL
336 3-5, 337 1	no options for dithering
Science Pure Parallel Observation Limitations	
Legal templates for pure parallel observing	
336 5	MIRI Imaging
336 1	NIRCam Imaging
336 4	NIRISS Imaging
337 1	NIRISS WFSS
336 3-5, 337 1	only 1 exposure spec in pure parallel observation
336 5	exposures/dithers must be 1 for MIRI
336 3-5, 337 1 grayed out inactive	no special requirements may be specified
00611001001_0001 through 0006,0008 only offered... 0009 RAPID	NIRCam RAPID can't be used for prime (slots)
940 6	NIRCam RAPID can't be used for parallel
00611001001_0008 offered B legal 00611003001_0001, 0003,0004 only offered... 0002 BRIGHT1 ALL	NIRCam BRIGHT1 can only be used if module!=ALL prime (slots)
336 1 B legal 9940 5 ALL illegal	NIRCam BRIGHT1 can only be used if module!=ALL parallel
336 2 MIRI legal 940 7 MOS illegal	NIRCam BRIGHT2 can't be used when NIRSpec MOS prime
Approved Science Pure Parallel Programs	
336 3-5, 337 1	once approved Pure Parallel Slots section added to proposal
336 3-5, 337 1	Field: Parallel Slot Group added
336 3-5, 337 1	for each slot in selected group a visit will be created
Calibration Pure Parallels	
605 2 MIRI Dark example	Calibration Pure Parallels are calibration observations with the PARALLEL sr.

not yet on web	Templates that allow or require PARALLEL sr will be listed at some point. *not yet on web*
